

Crude Oil Price Predictor 2020

Christopher Page

8/12/2020

Introduction/Overview/Executive Summary

Crude oil is an important commodity. Some of our planet's inhabitants produce it. Many more consume it either directly or in the form of such downstream products as aviation fuel and automotive gasoline. All are affected by it in beneficial and detrimental ways. Because of its wide-ranging effects, effects that extend well beyond the realms of economics and diplomacy, crude oil commands collective attention enabled by careful and continuous analysis.

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
```

```
##      speed      dist
##  Min.   : 4.0    Min.   :  2.00
##  1st Qu.:12.0    1st Qu.: 26.00
##  Median :15.0    Median : 36.00
##  Mean   :15.4    Mean   : 42.98
##  3rd Qu.:19.0    3rd Qu.: 56.00
##  Max.   :25.0    Max.   :120.00
```

Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
